

It's a French world after all

By Kris Morgan

Fun avec French is truly *fun*! An event was created just for students who were receiving the Franco-Excellence award. These students excelled in practicing French outside the classroom while demonstrating positive behavior to their peers. The evening of November 13th included a movie, cake and a fun inventive word hunt enjoyed by all. The students were the first of many to be included in a new commemorative tradition called “la Boule d’excellence”. They received their awards with wide eyes and big smiles. “I am so honored to be working with these students” says Lisa Gallant, founder of Fun avec French. “In keeping with our fun philosophy, we wanted to create an event to celebrate the students’ efforts in practicing French.” Mrs. Gallant expressed how much she truly enjoys working with the students to help them practice their French skills.

Fun avec French would like to congratulate the 2009 recipients of the Franco-Excellence Award. The recipients, from various schools in the Halton and Peel regions, are: Alexandra S.
